6 NOV 1958

MEMORANDUM FOR THE FILES

SUBJECT: (Meeting with NSA on 4 November 1958)

1. A meeting was held in [redacted] office on [redacted] 4 November to discuss R & D liaison with personnel from NSA. Those attending were:

Director of Communications
 Chief, Special Programs Staff
 Chief, Engineering Staff
 Deputy Chief, NSA
 Special Assistant, NSA
 Deputy Chief, R & D, NSA
 Chief of Intercept R & D, NSA

25X1

25X1

The purpose of the meeting was to review and renew our R & D liaison contacts and procedures. The major problem seems to be to establish a working relationship on R & D of ELINT equipment since this is a new field for NSA. In order to give the visitors a picture of our R & D effort, we briefly reviewed the current R & D projects as represented by the contents page of the recent Progress Report. We then reviewed the contents page of the recent SP catalogue, which covers both ELINT and COMINT equipments.

2. It was agreed that [redacted] would be the CIA contact points on new items of mutual interest. [redacted] will be contacted on the NSA side. After initial contact has been made, we agreed that project officers will deal directly with their counterparts in the other Agency. [redacted] requested that we inform him of all tests of short time burst equipment that we conduct so that he can alert his monitors. We agreed to do so provided he doesn't disclose details of the nature of the equipment to too many people.
